

Bathroom Remodel Checklist

1. This first question is whether you want to work with the existing layout of your bathroom, or have considered re-arranging the footprint or want to increase the bathroom space.

Keep Rearrange Increase Space

2. When considering a bathroom remodel, start with what items in your existing bathroom you want to keep or replace. Keep in mind items you don't already have but would like to add to your bathroom. Also note what items will not be changed by the remodel.

HINT: Keep a notebook with your checklist and write down whatever questions you want answered by your Contractor.

REMEMBER:
 This is just a starting point. When meeting with your Contractor for the first time, expect these questions to be asked and more. It is a benefit to "window shop" as part of your planning process. Look through remodeling and home magazines and share pictures that appeal to you.

3. For the items you plan to replace, think of the type of material and finish you want for the new bathroom. Such as:

Floor Material: Tile Vinyl Other: _____
 Fixture Finish: Chrome Bronze Brushed Nickel Other: _____
 Wall Covering: Paint Tile Wainscoting Other: _____
 Countertop: Tile Solid Surface (Type: _____)

4. When do you want to start the bathroom remodel? _____

5. What is your "need to be finished" date? _____

6. What is your budget for this bathroom remodel? Your Contractor has resources for all levels of remodeling. It is practical to know what you plan to invest when estimating the cost of what you want.
